

Variotrac® – the swivelling rope for radiology

With our 360° swivel rope Variotrac® Febromed is making a valuable contribution to the work flow on your radiology ward that is safe and beneficial to the patient's health. Without taking up excess space, our rope adds significant value to everyone involved – patients, staff and ultimately your entire facility. Your benefits at a glance:

For patients:

- A safe and comfortable way to get up
- Risk of falls is minimised
- Firm and secure support

For your staff:

- Work with less back strain
- Work takes a smaller physical toll
- More time for one-on-one patient care

For your facility:

- Healthy and motivated staff
- Less back pain in your staff members
- Significantly lower health-related absence times
- Quicker and more efficient exams
